networks.

Objectives

Primary

Establish the **Safety Profile** of NTZ (short to long term) in real life settings

Determine the **Incidence of Adverse Events**, notably

- infusion-related events, hypersensitivity reactions,
- development of anti-NTZ antibodies,
- infections: serious, opportunistic,
- pregnancies and pregnancy outcomes,
- malignancies

Secondary

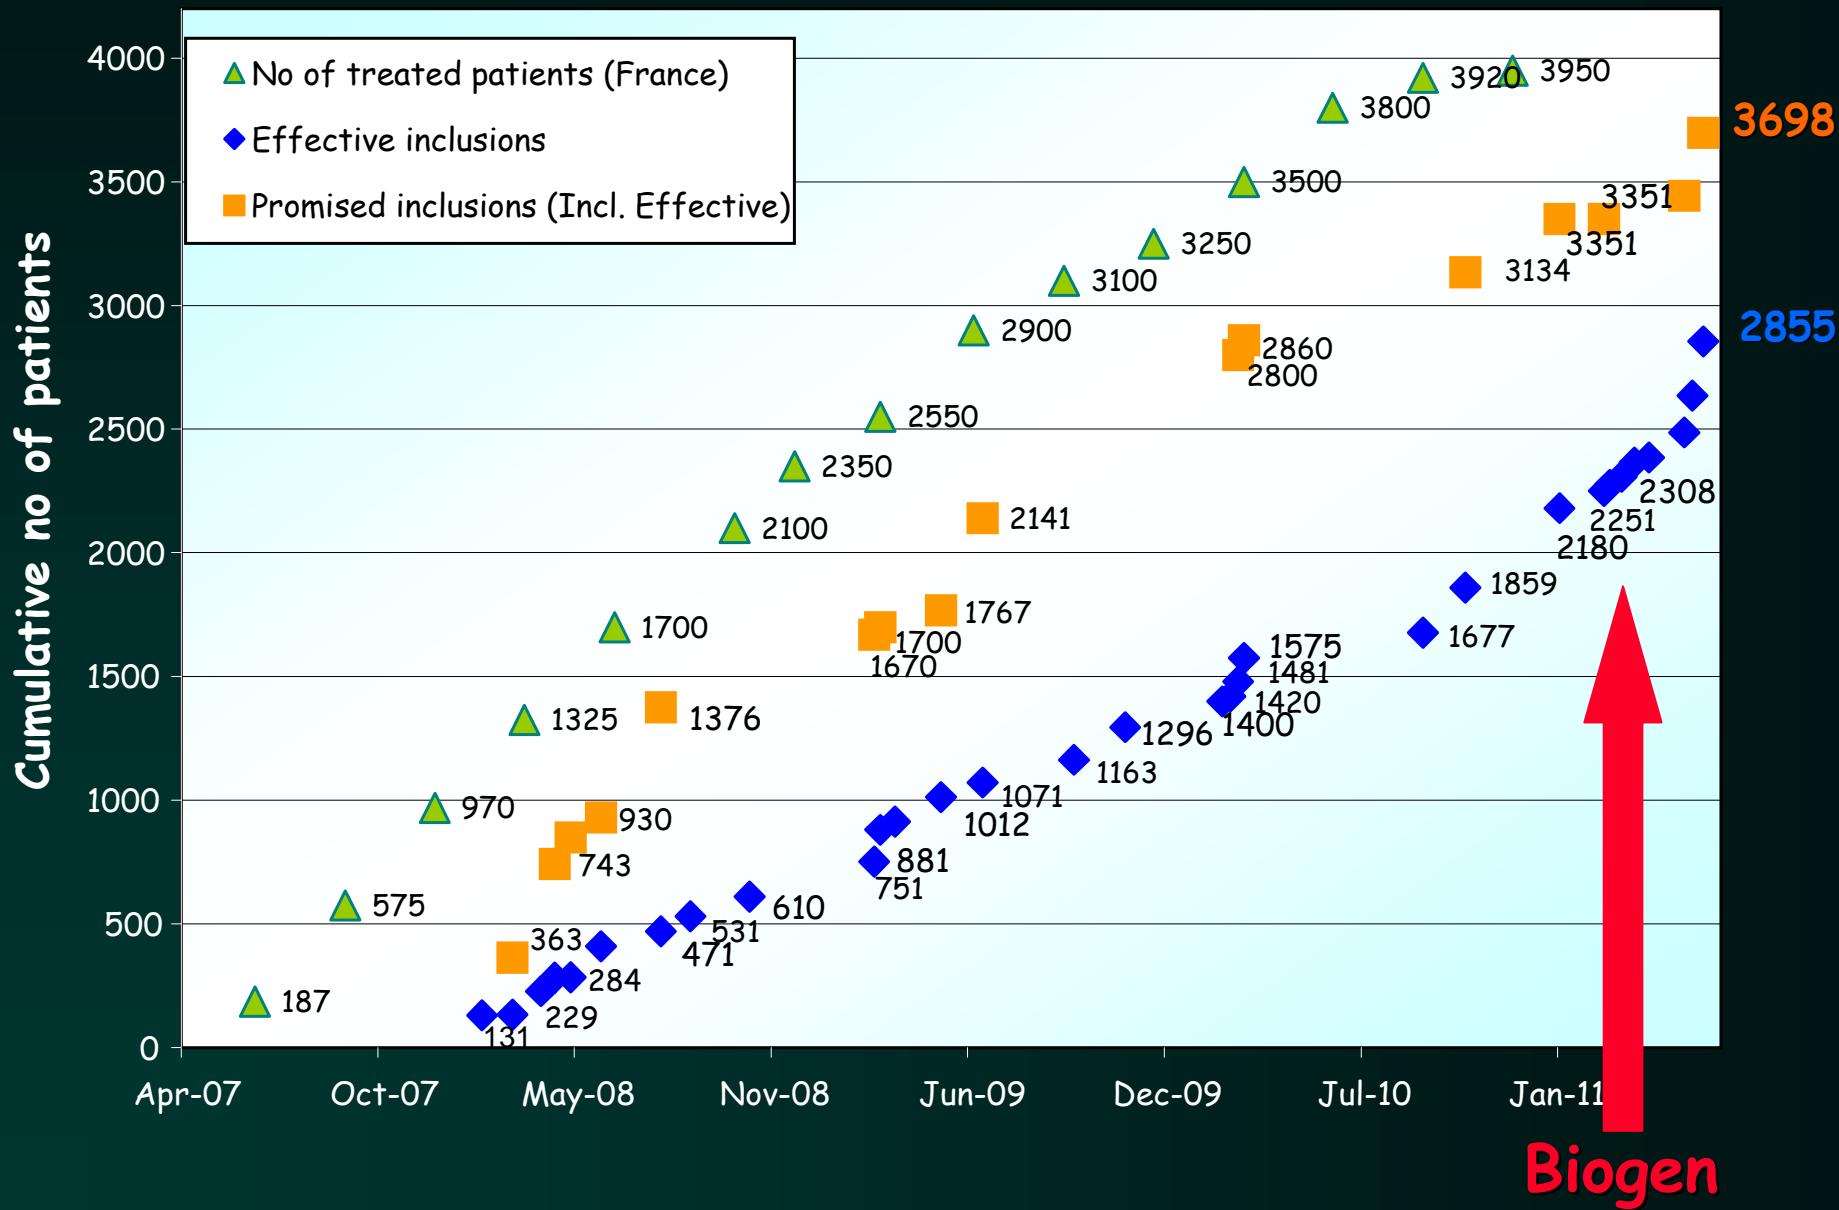

Describe the **Evolution** of patients treated with NTZ (relapses, EDSS, MRI)

Determine the **Conditions of Use** of NTZ in real life settings

Compare the incidence of serious and/or opportunistic infections and malignancies,
between a **Non-Exposed Population** and the NTZ-exposed one

Inclusions

± 4000

Characteristics at Inclusion

Age (mean \pm SD)	37.7 \pm 9.8 yr
Female : Male Ratio	3 : 1
Disease Duration (mean \pm SD)	9.1 \pm 6.7 yr
Disease Course (% patients with RRMS)	96 %
Prior Disease-Modifying Treatments (% patients)	
Immunomodulators	88 %
Immunosuppressants	22 %
None	10 %
Nb Relapses in the Previous 12 Months (mean \pm SD)	1.9 \pm 1,2
EDSS score (mean \pm SD)	3.6 \pm 1,8
Brain MRI with Gad+ Lesions	55 %

Follow-up

Duration

Mean \pm SD	20.1 ± 13.9 months
Median [Range]	19.5 [0 - 57] months

425 (16%) patients definitively stopped natalizumab

487 treatment discontinuations

- 32 % = Adverse Events, Allergy, Persisting Neutralizing Antibodies, ...
- 23 % = Lack of Efficacy (Relapses, Secondary progression)
- 45 % = Pregnancy, Convenience, ...

Safety

164 Serious Adverse Events among 128 patients (4.5%)

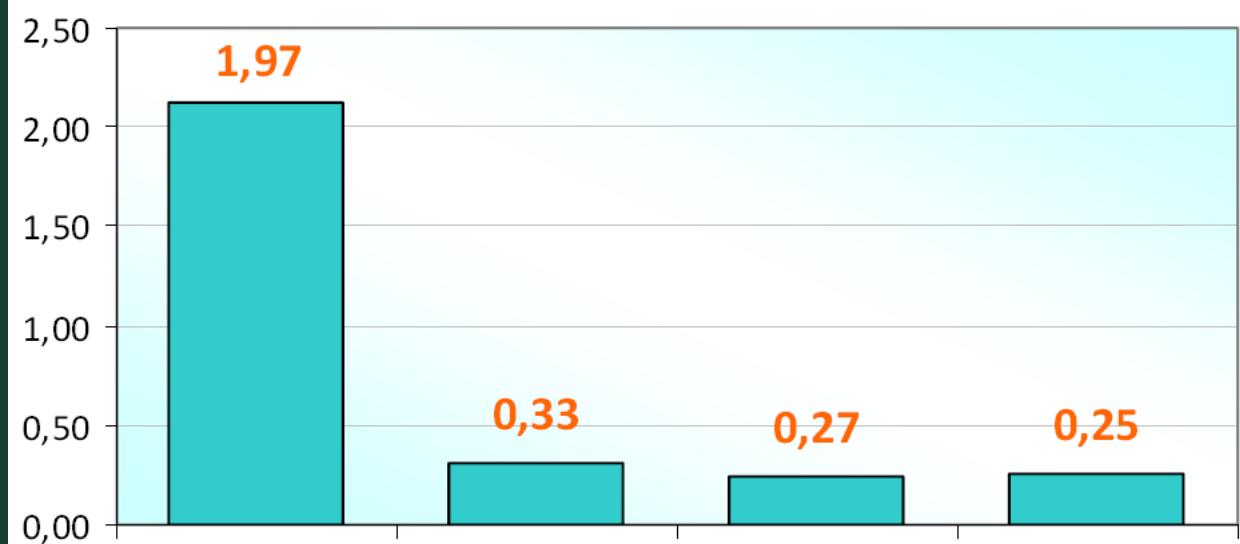

Severity	Description	Infusion No	NTZ Stopped
Death	PML	18	-
	Acute Leukoencephalopathy (mycoplasma)	19	-
	Cardiac arrest	14	-
	Cardiac arrest	2	-
	Completed suicide by defenestration	14	-
	Completed suicide by drug overdose	18	-
Persistent or significant disability	Carotid Artery Dissection, Sylvian Infarction	21	NO
Life-threatening	PML	32	YES
	Encephalitis due to herpes simplex	23	YES
	Urticaria, extended	2	YES
	Suicide attempt by drug overdose & cutting femoral vein	17	Unknown
	Suicide attempt by drug overdose	18	NO
	Suicide attempt	11	NO
	Cardio-respiratory arrest due to drowning	10	NO

Severity	Description	Infusion No	NTZ Stopped
Hospitalisation	PML	19	YES
	PML	39	YES
	PML	34	YES
	PML	Unknown	YES
	PML	Unknown	YES
	PML	Unknown	YES
	B-cell lymphoma, Small cell lung cancer	33	YES
	Rectum cancer	27	YES
	Breast Cancer	7	YES
	Breast cancer	Unknown	YES
	Uterus cancer	43	NO
	Skin cancer	26	NO
	Anaphylactic shock 14 Allergic reactions	30	NO
	Anaphylactic shock 14 Allergic reactions	2 2x9, 3x2, 5x2, 6x1	YES YES
	Acute retinal necrosis due to VZV	21	YES
	Meningitis due to Enterovirus	1	YES
	Herpes Zoster shingles	3	NO
	Tuberculosis (<i>Mycobacterium avium</i>)	29	Unknown
	Cytolytic hepatitis	34	YES

Efficacy

Relapses

(Mean Annualized Relapse Rate)

EDSS Score (Mean \pm SD)

3.7 ± 1.8

3.3 ± 1.9

3.4 ± 1.9

3.5 ± 2.0

► Investissements d'avenir : 200 millions d'euros pour les 10 lauréats de l'appel à projets "Cohortes"

Les 10 projets lauréats de l'appel à projets "Cohortes" du programme "Investissements d'avenir" ont été présentés par Valérie Pécresse et René Ricol, commissaire général à l'investissement. Inscrit dans l'action "Santé et Biotechnologies", l'appel à projets "Cohortes" est doté de 200 millions d'euros et assure un financement sur la durée.

Communiqué - Valérie Pécresse

25 janvier 2011

Valérie Pécresse, ministre de l'Enseignement supérieur et de la recherche, et René Ricol, commissaire général à l'investissement, ont dévoilé les 10 projets lauréats de l'appel à projets "Cohortes". Inscrit dans l'action "Santé et Biotechnologies", l'appel à projets "Cohortes" est doté de 200 millions d'euros et assure un financement sur la durée.
