Workshop on patient's voice in the evaluation of medicines

PCWP and HCPWP joint meeting, 26 September 2013

Presented by: Isabelle Moulon

An agency of the European Union

Objectives

- Getting better understanding of the current role of the patient
 - during the development of a medicine
 - in the benefit/risk evaluation
- And looking forward to the future

Aim: To revise the framework of interaction between the EMA and the patients' and consumers' organisations in order to prepare for further integration of the patient's voice and values all along the life cycle of the medicine.
