

EMEA/CVMP/151/95
London 16 November 1995

PRESS RELEASE

7th MEETING OF THE COMMITTEE FOR VETERINARY MEDICINAL PRODUCTS

Under the Chairmanship of Prof. R. Kroger, the seventh meeting of the Committee for Veterinary Medicinal Products (CVMP) took place in London on 15-16 November 1995.

The Committee discussed the draft assessment reports prepared by the rapporteur and the co-rapporteur on the first application received by the Agency for the granting of a marketing authorisation for a feline vaccine falling under the scope of part A to the Annex to Council Regulation (EEC) No 2309/93. The Committee agreed on a list of questions to be sent to the applicant.

The Committee approved the recommendation of its Immunological Working Party in response to a question from a potential applicant for scientific advice on the design of studies in the pre-development phase of a recombinant vaccine for horses.

The Committee recommended provisional MRLs (Annex III) for two substances : one for a new molecule falling under the scope of Article 6 of the MRL Regulation, and one for an old molecule falling under the scope of Article 7 of the same Regulation.

The Committee also recommended that eight old substances (Article 7) be placed in Annex II.

Rapporteurs and co-rapporteurs were appointed for the establishment of MRLs for 4 new substances.

The next meeting of the Committee will be held on 13 to 15 December 1995.

General information about EMEA and EPAR (European Public Assessment Report) for centrally approved human products are now available on Internet and E-mail at the following addresses:

- E-mail: mail@emea.eudra.org;
- Internet: www.eudra.org.

EPAR for centrally approved veterinary products and summary assessment reports for the establishment of Maximum Residue Limits are expected to be available in the short term.
