

London, 15 July 1999
EMEA/CVMP/442/99

PRESS RELEASE
COMMITTEE FOR VETERINARY MEDICINAL PRODUCTS
45th MEETING

Under the Chairmanship of Professor R. Kroker the forty-fifth meeting of the Committee for Veterinary Medicinal Products took place in London on 13 - 15 July 1999.

Opinions

- The Committee adopted unanimous positive Opinions and CVMP Assessment Reports for two products assessed under the Centralised Procedure and eligible under Part B of the Annex to Council Regulation (EEC) No. 2309/93. One product is indicated for the treatment of clinical signs of anaemia in dogs and the other for the treatment and prevention of endo- and ectoparasites in the dog and cat.
- A further three unanimous positive Opinions and CVMP Assessment Reports were adopted for two extensions and a Type II variation to three products previously assessed under the Centralised Procedure.
- The Committee considered 4 appeals in respect of MRL Opinions for 4 old substances, one of which was successful.

MRLs	New Substances:	New Substances: Extensions to further species/ Modifications	"Old" Substances (incl. substances of vegetable origin and those used in veterinary homeopathy)
Opinions adopted at this meeting	1	5^a	15^b

^a Including 2 substances where no MRL was set

^b Including 1 substance where no MRL was set

	Opinions delivered since 1.1.1995	Applications under evaluation	Applications anticipated within the next 4 months
Centralised procedures	18	17	6
MRL procedures*	67**	9	4

* Applications submitted to the EMEA after 1.1.1995

** including 11 Opinions recommending definitive MRLs for substances with previously provisional MRLs

Antimicrobial Resistance

- The Committee adopted a Report on Antimicrobial Resistance in the European Union Associated with Therapeutic Use of Veterinary Medicines and Qualitative Risk Assessment (EMEA/CVMP/342/99- FINAL) and subsequently presented it publicly at a meeting of CVMP Interested Parties. The document is available on the EMEA website.

Miscellaneous Items

- Further to the request of the European Commission to re-consider the MRL assessment of Recombinant Bovine Somatotropin (r-BST) in light of new data having become available, a majority of Committee members of CVMP confirmed the previous opinion that there is no need to re-establish an MRL and recommended the inclusion of r-BST in Annex II of Council Regulation (EEC) No. 2377/90.
- The next meeting of the CVMP will be held on 17 and 18 August 1999.

Peter G.H. Jones

Head, Veterinary Medicines Evaluation Unit
