

London, 11 October 2001
EMA/CVMP/911/01

PRESS RELEASE
COMMITTEE FOR VETERINARY MEDICINAL PRODUCTS
70th MEETING

Under the Chairmanship of Mr S. P. Dean the seventieth meeting of the Committee for Veterinary Medicinal Products took place in London on 9-10 October 2001.

CVMP Opinions on Medicinal Products

The Committee unanimously adopted a positive opinion and CVMP assessment report for a Type II variation, relating to TSE compliance in respect of an immunological product previously assessed under the Centralised procedure.

Establishment of Maximum Residue Limits

The Committee unanimously adopted a positive Opinion and Summary Report on the inclusion in Annex II of Council Regulation (EEC) No. 2377/90 of one substance.

	Opinions delivered since 1.1.1995	Applications under evaluation	Applications anticipated within the next 4 months
Centralised procedures	40	14	4
New MRL procedures¹	108²	8	4

¹ Applications submitted to the EMEA after 01.01.1995

² Including 16 Opinions recommending definitive MRLs for substances with previously provisional MRLs

Guidelines, SOPs and Position Papers

The Committee adopted the following final guideline following the end of the consultation period:

- Guideline on the Requirements and Controls applied to Bovine Serum used in the Production of Immunological Veterinary Medicinal Products (EMA/CVMP/743/00-FINAL)

The Committee adopted the following guidelines for release for consultation:

- Guideline on pre-authorisation studies to assess the potential resistance resulting from the use of antimicrobial veterinary medicinal products (EMA/CVMP/244/01-CONSULTATION)
- Revised Guideline on Antimicrobials for General Use in Target Animal Species (EMA/CVMP/627/01-CONSULTATION)

- Guideline for the SPC for Antimicrobial Products (EMEA/CVMP/612/01-CONSULTATION)
CVMP and its experts will review the draft antimicrobial guidelines at the beginning of the consultation period at a focus group meeting to be held with its Interested Parties at the EMEA in November.
- Guideline on the Processing of Renewals in the Centralised Procedure (EMEA/CVMP/695-CONSULTATION)

Referrals

The Committee considered the referral from the Commission under Article 40(2) of Council Regulation (EEC) No 2309/93 further to the suspension of the marketing of Suvaxyn Aujeszky 738+O/W in one Member State. The Committee concluded that no safety problems associated with the use of the vaccine as authorised could be established and therefore recommended the maintenance of the Marketing Authorisation without changes. The opinion will be forwarded to the Commission.

Pharmacovigilance issues

The Committee adopted the VEDDRA list of clinical terms for release for a 3-month period of consultation. The VEDDRA database is also being made available on the EMEA Website.

Periodic Safety Update Reports (PSURs) on 5 centrally authorised products were considered by the Committee; the Committee concluded that the information available did not create a need for further action or changes to the respective Summary of Product Characteristics (SPC).

The next meeting of the CVMP will be held on 6-8 November 2001

Peter G.H. Jones

Head, Veterinary Medicines Evaluation Unit
