

EMA/439501/2020

Fampyra

Procedural steps taken and scientific information after the authorisation

Application number	Scope	Opinion/ Notification ¹ issued on	Commission Decision Issued ² / amended on	Product Information affected ³	Summary
N/0048	Minor change in labelling or package leaflet not connected with the SPC (Art. 61.3 Notification)	09/07/2020		PL	
II/0046	Update of sections 4.2, 4.3, 4.4, 4.8, 4.9 and 5.2 of the SmPC in order to remove the contraindication for patients with mild renal impairment, add a warning	09/07/2020		SmPC and PL	The SmPC has been updated as follows: Section 4.3: removal of contraindication mild renal impairment.

¹ Notifications are issued for type I variations and Article 61(3) notifications (unless part of a group including a type II variation or extension application or a worksharing application). Opinions are issued for all other procedures.

² A Commission decision (CD) is issued for procedures that affect the terms of the marketing authorisation (e.g. summary of product characteristics, annex II, labelling, package leaflet). The CD is issued within two months of the opinion for variations falling under the scope of Article 23.1a(a) of Regulation (EU) No. 712/2012, or within one year for other procedures.

³ SmPC (Summary of Product Characteristics), Annex II, Labelling, PL (Package Leaflet).

	<p>for patients with mild renal impairment, update the frequency of seizure to uncommon, add vertigo with frequency common, add dizziness in section 4.9 to reflect safety information based on from final results of study 218MS401 (LIBERATE) listed as category 3 study in the RMP; Study 218MS401 was a Phase IV prospective, noninterventional, multicentre, observational study in MS patients who began Fampyra treatment in the postmarketing setting. The Package Leaflet is updated accordingly. An updated RMP version 13.1 has also been submitted to align with the RMP Rev. 2 template and to remove all safety concerns; some continue to be monitored in PSUSA safety specifications.</p> <p>C.I.4 - Change(s) in the SPC, Labelling or PL due to new quality, preclinical, clinical or pharmacovigilance data</p>				<p>Section 4.4: addition of warning that Fampyra should be used with caution in patients with mild renal impairment.</p> <p>Section 4.8: addition of vertigo, frequency common based on LIBERATE study results.</p> <p>Section 4.9: addition of dizziness as overdose symptom based on LIBERATE study results.</p> <p>Section 5.2: deletion of statement that clinical studies of Fampyra did not include sufficient number of patients older than 65 years old.</p> <p>The Package Leaflet is updated accordingly.</p> <p>The RMP was updated to remove of all safety concerns, some continue to be monitored in PSUSA safety specifications.</p>

II/0036/G	<p>This was an application for a group of variations.</p> <p>This is a grouped variation proposing updates to the SmPC sections 4.2, 4.8, 5.1, Annex II and Package Leaflet based on the clinical study ENHANCE and to the SmPC section 4.6 based on the data from the FOLLOW pregnancy registry. The RMP (version 11) has been updated accordingly. In addition, the Marketing authorisation holder (MAH) took the opportunity to bring the PI in line with the latest QRD template version 10.0. Finally, the CHMP recommends the granting of a marketing authorisation no longer subject to specific obligations.</p>	23/03/2017	22/05/2017	SmPC, Annex II, Labelling and PL	In this group of variations the MAH submitted data from the Enhance study (218MS305) conducted in 636 subjects with multiple sclerosis and walking disability. Duration of double-blind treatment was 24 weeks with a 2 week post-treatment follow-up. The primary endpoint was improvement in walking ability, measured as the proportion of patients achieving a mean improvement of ≥ 8 points from baseline MSWS-12 score over 24 weeks. In this study there was a statistically significant treatment difference, with a greater proportion of Fampyra treated patients demonstrating an improvement in walking ability, compared to placebo-controlled patients (relative risk of 1.38 (95% CI: [1.06, 1.70])). Improvements generally appeared within 2 to 4 weeks of initiation of treatment, and

	<p>C.I.4 - Change(s) in the SPC, Labelling or PL due to new quality, preclinical, clinical or pharmacovigilance data</p> <p>C.I.4 - Change(s) in the SPC, Labelling or PL due to new quality, preclinical, clinical or pharmacovigilance data</p> <p>C.I.4 - Change(s) in the SPC, Labelling or PL due to new quality, preclinical, clinical or pharmacovigilance data</p>				<p>disappeared within 2 weeks of treatment cessation. Based on the results of the study it was agreed that specific obligation has been fulfilled, and therefore it is deleted from the Annex II.</p> <p>Furthermore, the MAH submitted results of the pregnancy registry FOLLOW which was terminated early due to lack of subject exposure to prolonged-release fampridine during pregnancy. The limited data available indicated no adverse effect of fampridine on the pregnancy outcomes.</p>
R/0037	Renewal of the marketing authorisation.	23/03/2017	18/05/2017		
PSUSA/1352/201601	Periodic Safety Update EU Single assessment - fampridine	02/09/2016	n/a		PRAC Recommendation - maintenance
N/0035	Minor change in labelling or package leaflet not connected with the SPC (Art. 61.3 Notification)	21/07/2016	18/05/2017	PL

R/0014	Renewal of the marketing authorisation.	20/03/2014	22/05/2014	SmPC, Annex II and PL	The CHMP, having reviewed the available information on the status of the fulfilment of Specific Obligations and having confirmed the positive benefit risk balance, is of the opinion that the quality, safety and efficacy of this medicinal product continue to be adequately and sufficiently demonstrated and therefore recommends the renewal of the conditional MA for Fampyra, subject to the Specific Obligations and Conditions as laid down in Annex II to the Opinion.

PSUV/0013	Periodic Safety Update	06/02/2014	n/a		PRAC Recommendation - maintenance
R/0011	Renewal of the marketing authorisation.	25/04/2013	01/07/2013	Annex II	The CHMP, having reviewed the available information on the status of the fulfilment of Specific Obligations and having confirmed the positive benefit risk balance, is of the opinion that the quality, safety and efficacy of this medicinal product continue to be adequately and sufficiently demonstrated and therefore recommends the renewal of the conditional MA for Fampyra, subject to the Specific Obligations and Conditions as laid down in Annex II to the Opinion.
II/0010	<p>Update of sections 4.4 and 4.8 of the SmPC in order to add information regarding hypersensitivity reactions (including anaphylaxis) and the respective warnings and precautions relevant to the prescriber. The Package Leaflet was proposed to be updated in accordance.</p> <p>In addition, the MAH took the opportunity to update the list of local representatives in the Package Leaflet.</p> <p>Furthermore, the PI was brought in line with the latest QRD template version 9.0.</p> <p>C.I.4 - Variations related to significant modifications of the SPC due in particular to new quality, pre-clinical, clinical or pharmacovigilance data</p>	30/05/2013	22/05/2014	SmPC and PL	<p>The CHMP considered the cases of hypersensitivity reported in the post-marketing setting, including the cases of anaphylaxis, and was of the view that a causal relationship between fampridine administration and hypersensitivity (allergic reaction) cannot be excluded. Overall, the CHMP concluded that hypersensitivity should be added to section 4.8 of the SmPC and the respective warnings and precautions relevant to the prescriber should be introduced in section 4.4. The following text was introduced to the Package Leaflet:</p> <p>“If you experience one or more of the following hypersensitivity symptoms: swollen face, mouth, lips, throat or tongue, reddening or itching of the skin, chest tightness and breathing problems stop taking Fampyra and see your doctor immediately”.</p>
