## Summary of opinion<sup>1</sup> (post authorisation)

---

### Ameluz

#### 5-aminolevulinic acid

On 21 July 2016, the Committee for Medicinal Products for Human Use (CHMP) adopted a positive opinion recommending a change to the terms of the marketing authorisation for the medicinal product Ameluz. The marketing authorisation holder for this medicinal product is Biofrontera Bioscience GmbH.

The CHMP adopted an extension to the existing indication as follows<sup>2</sup>:

“Treatment of actinic keratosis of mild to moderate ~~severity~~**intensity** on the face and scalp (Olsen grade 1 to 2; see section 5.1) **and of field cancerization.**”

Detailed recommendations for the use of this product will be described in the updated summary of product characteristics (SmPC), which will be published in the revised European public assessment report (EPAR), and will be available in all official European Union languages after a decision on this change to the marketing authorisation has been granted by the European Commission.

---

<sup>1</sup> Summaries of positive opinion are published without prejudice to the Commission decision, which will normally be issued 67 days from adoption of the opinion
