Committee for Medicinal Products for Human Use (CHMP)

Summary of opinion¹ (post authorisation)

Shingrix

herpes zoster vaccine (recombinant, adjuvanted)

On 23 July 2020, the Committee for Medicinal Products for Human Use (CHMP) adopted a positive opinion recommending a change to the terms of the marketing authorisation for the medicinal product Shingrix. The marketing authorisation holder for this medicinal product is GlaxoSmithkline Biologicals SA.

The CHMP adopted an extension to the existing indication as follows:²

Shingrix is indicated for prevention of herpes zoster (HZ) and post-herpetic neuralgia (PHN), in:

- adults 50 years of age or older;
- **adults 18 years of age or older at increased risk of HZ**~~(see section 5.1)~~.

Detailed recommendations for the use of this product will be described in the updated summary of product characteristics (SmPC), which will be published in the revised European public assessment report (EPAR), and will be available in all official European Union languages after a decision on this change to the marketing authorisation has been granted by the European Commission.

¹ Summaries of positive opinion are published without prejudice to the Commission decision, which will normally be issued 67 days from adoption of the opinion
