**Subject: Withdrawal of Aivlosin 42.5 mg/g premix for medicated feeding stuff for chickens: New target species**  
**EMA/V/C/000083/X/0081**

Dear Sir/Madam

**For the withdrawal of an Annex II application linked to an extension of the authorisation of a medicinal product already authorised**

I would like to inform you that, at this point in time, ECO Animal Health Europe Limited has taken the decision to withdraw the application for a change to the marketing authorisation for Aivlosin 42.5 mg/g premix for medicated feeding stuff to add a target species in the indication.

The reason for withdrawal is based on a commercial decision.

We reserve the right to make further submissions at a future date in this or other therapeutic indications/target species, if applicable.

I agree for this letter to be published on the EMA website.

Yours faithfully,

On behalf of ECO Animal Health Europe Limited
