Subject: **Withdrawal of Oncept Melanoma solution for injection for dogs
Centralized procedure (EMA/V/C/003684/0000)**

Dear Sirs,

I would like to inform you that, at this point of time, Merial has taken the decision to withdraw the application for Marketing Authorisation of Oncept Melanoma solution for injection for dogs, which was intended to be used against oral malignant melanoma in dogs.

This withdrawal is based on the following reason:

The company's additional investment in Research and Development required to answer the remaining issues is not justified.

We reserve the right to make further submissions at a future date in this or other therapeutic indication(s)/target species, if applicable.

I agree for this letter to be published on the EMA website.

Yours faithfully,
