

Curriculum Vitae

Personal information **Amanda Bering Abildgaard**

Work experience

Start date: September 2025
End date: present
Position: Quality Assessor
Employer: Danish Medicines Agency
Activities: Quality assessment of biological pharmaceutical products

Start date: May 2023
End date: December 2024
Position: Research Scientist
Employer: Novozymes/Novonosis
Activities: Development and innovation of liquid enzyme product formulations

Start date: December 2021
End date: May 2023
Position: Postdoctoral researcher
Employer: Institute of Biology, University of Copenhagen
Activities: Research in stability of protein variants focusing on biophysical characterization and folding.

Education and training

Start date: January 2018
End date: March 2022
Degree: Ph.D. in Molecular Biomedicine
Institution: Institute of Biology, University of Copenhagen
Country: Denmark
Subjects: Research in protein stability and folding, cellular protein quality control systems and protein degradation with a focus on disease-linked protein variants.
