

## Curriculum Vitae

Personal information Claire Bahans

### Work experience

---

**. September 2005 – Present:** Epidemiologist and clinical research engineer - Pediatrics Department and Clinical Investigation Center of Limoges, Limoges University Hospital, France

- **Research Project Development:** conception, drafting protocols, scientific publications
- **Methodological supervision** of pediatric, pediatric surgery and pediatric radiology interns (medical thesis)
- **Co-coordinator of the Unit for Young Investigators in Research (CIC-P1435 – Limoges):** To foster the emergence of a clinical research dynamic and cohesion among beginner investigators at the Limoges University Hospital, the Clinical Investigation Center of Limoges has established a support unit for physicians wishing to engage in clinical research. This unit is aimed at any physician who wishes to complete an interventional clinical research project and needs support for project development and does not have experienced investigators in their close environment.

**2012 – Present: Member of the Comité de Protection des Personnes Sud-Ouest et Outre- Mer IV** (French national medical research ethics committee)

**2018-2022 : Chair of the Comité de Protection des Personnes SOOM IV**

The role of the Comités de Protection des Personnes is to give an opinion/approval on the conditions on the validity of research involving the human person (clinical trials, clinical investigations, performance studies, interventional and observational studies), particularly with regard to the protection of individuals, the relevance of the research and the adequacy, completeness and clarity of the written information to be provided to volunteers wishing to take part in clinical trials.

**2020 – Present: Vice-Chair of the Conférence Nationale des Comités de Protection des Personnes (National conference of committees for the protection of persons)**

The national conference of committees for the protection of persons (<https://cncpp.fr>) is an association comprising the French Comités de Protection des Personnes with the following missions:

- To ensure coordination and harmonization, exchange, and collaborative work, information, and training support for its members, and to contribute to the improvement of practices.
- To represent the Comités de Protection des Personnes before public and private institutions on matters within its competence.

**2020 - 2023:** Member of the French National Commission for Research Involving the Human Person (CNRIPH - <https://sante.gouv.fr/systeme-de-sante/innovation-et-recherche/article/la-commission-nationale-des-recherches-impliquant-la-personne-humaine> )

**COVID-19 (March 2020 – 2021):** Member of the French national steering committee for therapeutic trials and other research (CAPNET) responsible for identifying the most promising clinical studies on Covid-19. This national prioritization system had been set up by the French Government and was based on the attribution of a label of ‘national research priority’ by the national steering committee for therapeutic trials and other research. This label gave access to research funding and to a fast-track procedure for trial authorisation.

## Education and training

---

- **2008-2009:** Master in Public Health – Specialization: Epidemiology - Institute of Public Health, Epidemiology and Development (ISPED), Bordeaux, France

Skills: public health, epidemiology, clinical trials, methodology

- **2006-2007:** University Diploma in Clinical Research Methods, ISPED, Bordeaux, France

Skills: clinical research methodology

- **2005-2006:** University Diploma in Database Management Methods in Medicine, ISPED, Bordeaux, France

Skills: database management

- **2002-2004:** Master in Public Health Science and Technology, ISPED, Bordeaux, France

Skills: public health, biostatistics, health economics, management

- **1999-2002:** Science diploma (Bachelor)

Skills: biology, physiology, immunology

#### **Certification :**

- **2022:** Bioethics: The Law, Medicine, and Ethics of Reproductive Technologies and Genetics – HARVARDX
- **2019:** WMA – TRREE (Training and Resources in Research Ethics Evaluation) – Research ethics evaluation.
