

Curriculum Vitae

Personal information Paulus Bakx

Work experience

11-04-2022 onwards: retired

01-04-2012 thru 10-04-2022: IT specialist, Ministry of Internal Affairs, Netherlands

01-01-1997 thru 31-03-2012: IT specialist, Atos, Netherlands

01-11-1987 thru 31-12-1996: IT specialist, Solvay Pharmaceuticals, Weesp, Netherlands

01-02-1982 thru 31-10-1987: Teacher, Interstudie, Nijmegen, Netherlands

01-09-1980 thru 31-08-1982: Teacher, Elzendaalcollege, Boxmeer, Netherlands

At Solvay Pharmaceuticals, I was a member of the R&D Automation department. As such, I supported some departments in the preclinical R&D with advice on software and computer systems. I have not been involved in any actual pharmaceutical product.

Education and training

2023-11 onwards: EUPATI fellow, PGOSupport, Netherlands (training program supposed to complete 2024-11)

1972-09 thru 1985-01: Drs (MSc), KU Nijmegen (currently: Radboud University), Netherlands, Mathematics

Additional information

Publications

Projects

2019 - onwards

Patient representative in various projects regarding research, development, implementation of innovations on care for people with Parkinson's. Mainly Dutch, but in a few cases also international co-operations.

Example: Neuripides, research regarding the possible utilization of neuro feedback to train people with Parkinson's to reduce the impact of symptoms (international consortium including departments from 6 universities).

Memberships

Other Relevant Information

I have a broad network including many people with Parkinson's and partners (informal caregivers). This network informs my knowledge on the condition and particularly also the way people experience the condition. Together with my wife I have been awarded the "Mies Rijksenprijs 2023" by the Parkinson Vereniging (Dutch Parkinson Association) for our activities for Parkinson's.
