

## Curriculum Vitae

Personal information Harun Yaras

### Work experience

---

#### **Clinical Assessor – Federal Agency for Medicines and Health Products (FAMHP), Belgium**

**Since September 2024**

- Responsible for clinical evaluation of medicines and health products, ensuring compliance with regulatory standards.
- Collaborate with multidisciplinary teams to assess clinical data and support regulatory decision-making processes.
- Provide expert advice on anti-infective therapies.

#### **Team Leader & Project Coordinator – Federal Public Service Health, Belgium**

**September 2020 – September 2024**

- Led multidisciplinary teams in the management of national programs related to medicines, blood products, and infectious diseases.
- **Project Coordinator** (July 2023 – September 2024): Directed a national initiative to strengthen infection prevention and control policies, as well as antimicrobial stewardship programs in hospital networks and long-term care facilities.
  - Developed strategic frameworks to enhance infection control measures.
  - Coordinated with healthcare professionals and policy makers to ensure effective implementation of antimicrobial use programs.
- Oversaw projects aimed at optimizing clinical practices and healthcare protocols in relation to infectious disease management.

#### **Project Coordinator – Federal Public Service Health, Belgium**

**September 2015 – September 2020**

- Coordinated high-impact projects within the **Quality and Patient Safety Unit**, focusing on the development and modernization of hospital pharmacy services and pharmaceutical care models.
- Implemented national strategies to improve patient safety and medication management.

- Led initiatives to integrate clinical pharmacy services into patient care frameworks, focusing on optimizing medication management, digitalizing pharmaceutical care processes, and enhancing interdisciplinary collaboration within healthcare teams.
- Led cross-functional teams to enhance hospital pharmacy standards, working closely with healthcare stakeholders to ensure adherence to regulatory requirements and quality benchmarks.

### **Hospital Pharmacist – Various Hospitals (St-Jean Clinic, CHS L’Accueil, CHBAH Seraing, Petit-Bourgogne, CHU of Liège) in Belgium**

**October 2007 – August 2015**

Throughout my career, I have held various roles and gained diverse experiences in hospital pharmacy:

- **Lead Pharmacist in Operating Theatres:** Managed pharmaceutical supply and safety protocols in surgical environments, ensuring compliance with medical and safety standards.
- **Medical Equipment and Device Vigilance Officer:** Established and monitored implant traceability systems, facilitated the implementation of medical device safety measures.
- Developed and conducted **Patient Medication Workshops:** Promoted patient education on pharmaceutical use, improving adherence and outcomes in specific populations (psychiatric, geriatric, and psychogeriatric care).
- Managed quality assurance processes in pharmaceutical production.

### **Community Pharmacist – La Sauvegarde Pharmacy & EPC-Familia, Belgium**

**October 2003 – September 2007**

- Managed daily operations at **La Sauvegarde Pharmacy**, overseeing inventory, patient consultations, and medication dispensing.
- **Traveling Pharmacist for EPC-Familia:** Provided pharmaceutical services across multiple sites, maintaining standards of care and ensuring regulatory compliance in diverse pharmacy settings.

## Education and training

---

- **Interuniversity Certificate in Strategy Design and Management**, Université Catholique de Louvain (UCL), Belgium (Certificate) February – June 2018
- **Master’s in Hospital Pharmacy**, University of Liège, Belgium (Master) September 2007 – September 2009
- **Master’s in Pharmaceutical Sciences**, University of Liège, Belgium (Master) September 1996 – September 2003
