Human and Veterinary medicinal products evaluation;
Pharmacodynamics and non-clinical pharmacokinetics;
Pharmacology in laboratory and target animals;
General and special toxicology;
Non-clinical drug development;
Rare Diseases and Orphan Drugs Development;
Public Health
- SPECIFIC EXPERTISE: Rare diseases and Orphan Drugs.
- Since 2008, given the involvement with the work of the Committee of Orphan Medicinal Products (and the responsibilities as Chairman between 2012-2018), several work was developed in establishing the Non-Clinical Working Group, the Protocol Assistance Working Group, the Significant-Benefit Working Group, the Prevalence Working Group, the Rare Conditions Working Group and the COMP-PDCO Working Group. All these working groups, created within the work program of the COMP, helped to clarify, establish and further support the scientific background of the role of the COMP in the full spectrum of the competencies established in Regulation 141/2000 of the EC, and were part of the vision shared for the role of the COMP from 2012 to 2018 in the regulatory system.
