  - Position: Senior Quality Assessor
  - Activities: Assessment of Module 2(QOS) and 3
  - Country: Malta

#### Education and training

---

1. Subject: St Dorothy's convent (Sliema) junior school
  - Start date: 101983
  - End date: 061990
  - Qualification: primary education
  - Organisation: Attended St Dorothy's convent (Sliema) junior school, as a regular student, completing my primary education in the year 1990.
  - Country: Malta
2. Subject: St Dorothy's convent (Mdina) Secondary school
  - Start date: 101990
  - End date: 061995
  - Qualification: Secondary education
  - Organisation: Attended St Dorothy's convent (Mdina) where I choose sciences as my main

.

subject and was given a school leaving certificate being graded with diligence in studies and very good in my overall behavior.

- Country: Malta
- 3. Subject: Giovanni Curmi higher secondary school (Naxxar)
  - Start date: 101995
  - End date: 061997
  - Qualification: Pre\_tertiary Education
  - Organisation: Attended Giovanni Curmi higher secondary school (Naxxar) and awarded a certificate of merit on successfully completing a two year full time course in advanced level Physics, during which a two year course in advanced Chemistry was also completed. In 1997 I attained a certificate in advanced level Physics
  - Country: Malta
- 4. Subject: University of Malta
  - Start date:
  - End date:
  - Qualification: Matriculation Certificate
  - Organisation: • Intermediate level: Physics, English, Geography and systems of Knowledge • Advanced level: Physics, Chemistry and Biology
  - Country: Malta
- 5. Subject: University of Malta
  - Start date: 101994
  - End date: 062004
  - Qualification: Bachelor of Pharmacy
  - Organisation: Attended a full time course in bachelor of Pharmacy (Hons) at the university of Malta and successfully completed the course with a second class Honours (lower division) 2002\_2004: A project entitled 'cost – effectiveness of statins in type 2 diabetic patients' was carried out in partial fulfillment of the degree of bachelor of hours in Pharmacy. This small scale clinical trial involved comparing the efficacy and safety profile of the two statins most commonly prescribed at SLH in order to determine the most cost\_effective of the two. The project was carried out at the diabetes clinic in SLH out patient department. During the course of this project, assistance requested (out such as urine testing, blood glucose monitoring) by the nursing staff, doctors in attendance and consultants was carried. Routine ward rounds with doctors and consultants were also undertaken.
  - Country: Malta
- 6. Subject: University of Malta
  - Start date: 102010
