Projects

Steel Sector Careers - Blueprint for sectoral cooperation on skills: Towards an EU strategy addressing the skills needs of the steel sector (COSME)

About - Analyse the skills needs and skills gaps of the European Steel Sector and address the misperceptions affecting the industry's ability to recruit skilled workers.

My role - Project lead of all research work packages; overall management of the consortium; drafting and review to the report "European vision on steel-related skills of today and tomorrow"; main liaison with the European Commission; public representation of the project in relevant events and conferences.

DIANA - Detection and Integrated Assessment of Non-authorized water Abstractions using Earth Observation (Horizon 2020)

About - Design and demonstration of a commercial service platform that uses Earth Observation (EO) to optimise the identification and inspection of non-authorized water abstractions for irrigation.

My role - Management of the business modelling and planning process, definition of an Intellectual property Rights management strategy

ISABEL - Triggering Sustainable Biogas Energy Communities through Social Innovation (Horizon 2020)

About - Promote, support and develop the uptake of biogas in Europe by creating grassroots local communities of biogas users

My role - Support in the communication and awareness-raising activities, representation of the project at external events and with the client.

Jobs in Tourism - Blueprint for Sectoral Cooperation on Skills in Tourism: Enhancing the Image of Tourism Careers (COSME)

About - Improve the image of the tourism sector by reinforcing positive aspects of tourism careers in order to attract new talents

My role - Support in data collection and project management activities
