

Curriculum Vitae

Personal information **Marion van den Bosch**

Work experience

Jul 2018 – Apr 2023: Research scientist, InteRNA Technologies BV, Utrecht, NL
I worked in a team of scientists and technicians to develop new miRNA therapeutics for cancer.

Mar 2016 – Apr 2018: Postdoctoral researcher, BC Cancer Agency, Vancouver, Canada
I investigated the role of miRNAs in the molecular pathogenesis of myeloid blood cancer.

Feb 2015 – Feb 2016: Postdoctoral researcher, University of Bristol, UK
I worked on several collaborative projects to investigate the role of platelets in different diseases.

Education and training

Oct 2011 - Jan 2015: PhD in Physiology and Pharmacology, University of Bristol, UK

Oct 2009 - Jul 2011: MSc in Clinical Molecular Sciences, Hasselt University, Belgium

Oct 2006 - Jul 2009: BSc in Biomedical Sciences, Hasselt University, Belgium
