

SPOR & XEVMPD Status Update

Recent & planned changes and impacts to users

08 July 2026

Housekeeping notes – Personal Data Protection disclaimer

Please note that **this session is being recorded** and **will be made available** through the **EMA Corporate Website and EMA YouTube Channel**

Participants will be able to ask questions or give their input via the audience interaction tool **Slido**. Interaction via Slido is voluntary, and you may opt to remain anonymous. If you chose to use Slido, **you consent to the processing of your personal data**. For more information on how EMA processes your personal data when using Slido, please refer to the specific sections on Slido in this [Data Protection Notice](#).

Housekeeping notes – Q&A

You can ask questions or give your input via the audience interaction tool **Slido**.

1. **Join at [slido.com](https://www.slido.com)** with the code #STUP080726 or by scanning the QR code here.

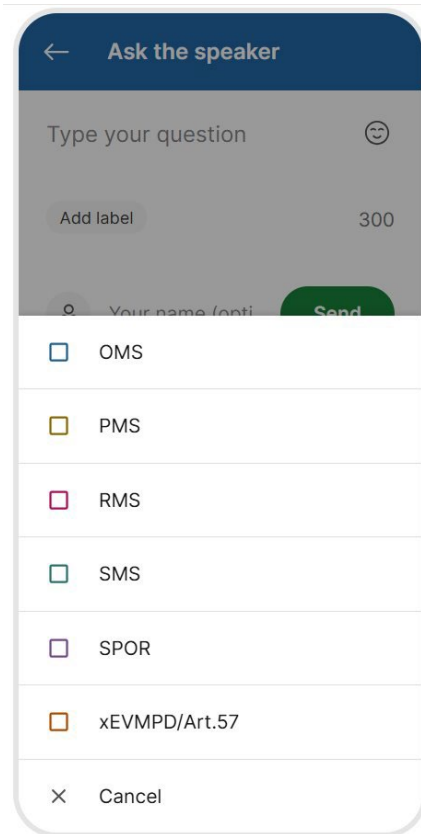

2. **Send or upvote the questions** you want to hear answered
3. **Questions will be shown on the screen** and EMA colleagues will **verbally address top 5 voted questions** in the live Q&A sessions.

Housekeeping notes – Q&A labels

Before sending your question, please **use one of the following labels** to get your question answered in the relevant Q&A session:

- *OMS*
- *PMS*
- *RMS*
- *SMS*
- *SPOR*
- *XEVMPD/ Art 57*

← Ask the speaker

Housekeeping notes – Webinar materials

Presentation will be available at:

- SPOR Portal Documents section
- EMA Event Web Page

Recording will be available at:

- EMA YouTube Channel (also in [SPOR webinars playlist](#))
- EMA Event Web Page

Aim of this webinar

Today's webinar aims at sharing a short-term status update on **SMS, OMS, RMS, PMS and XEVMPD** focusing on **recent/ planned changes and impacts to users.**

Agenda

1

Welcome & Housekeeping notes

10 mins presentation (no Q&A)

10:00 – 10:10

2

SMS status update

10 mins presentation + 5 mins Q&A

10:10 – 10:25

3

OMS status update

10 mins presentation + 5 mins Q&A

10:25 – 10:40

4

RMS status update

10 mins presentation + 5 mins Q&A

10:40 – 10:55

5

Coffee Break + survey info

10 mins

10:55 – 11:05

6

XEVMPD status update

10 mins presentation + 10 mins Q&A

11:05 – 11:25

7

PMS status update

10 mins presentation + 10 mins Q&A

11:25 – 11:45

8

Feature topics - OMS Subscriptions, RMS term versions in API

20 mins presentation + 10 mins Q&A

11:45 – 12:15

9

Conclusions

10 mins presentation +

5 mins Slido survey

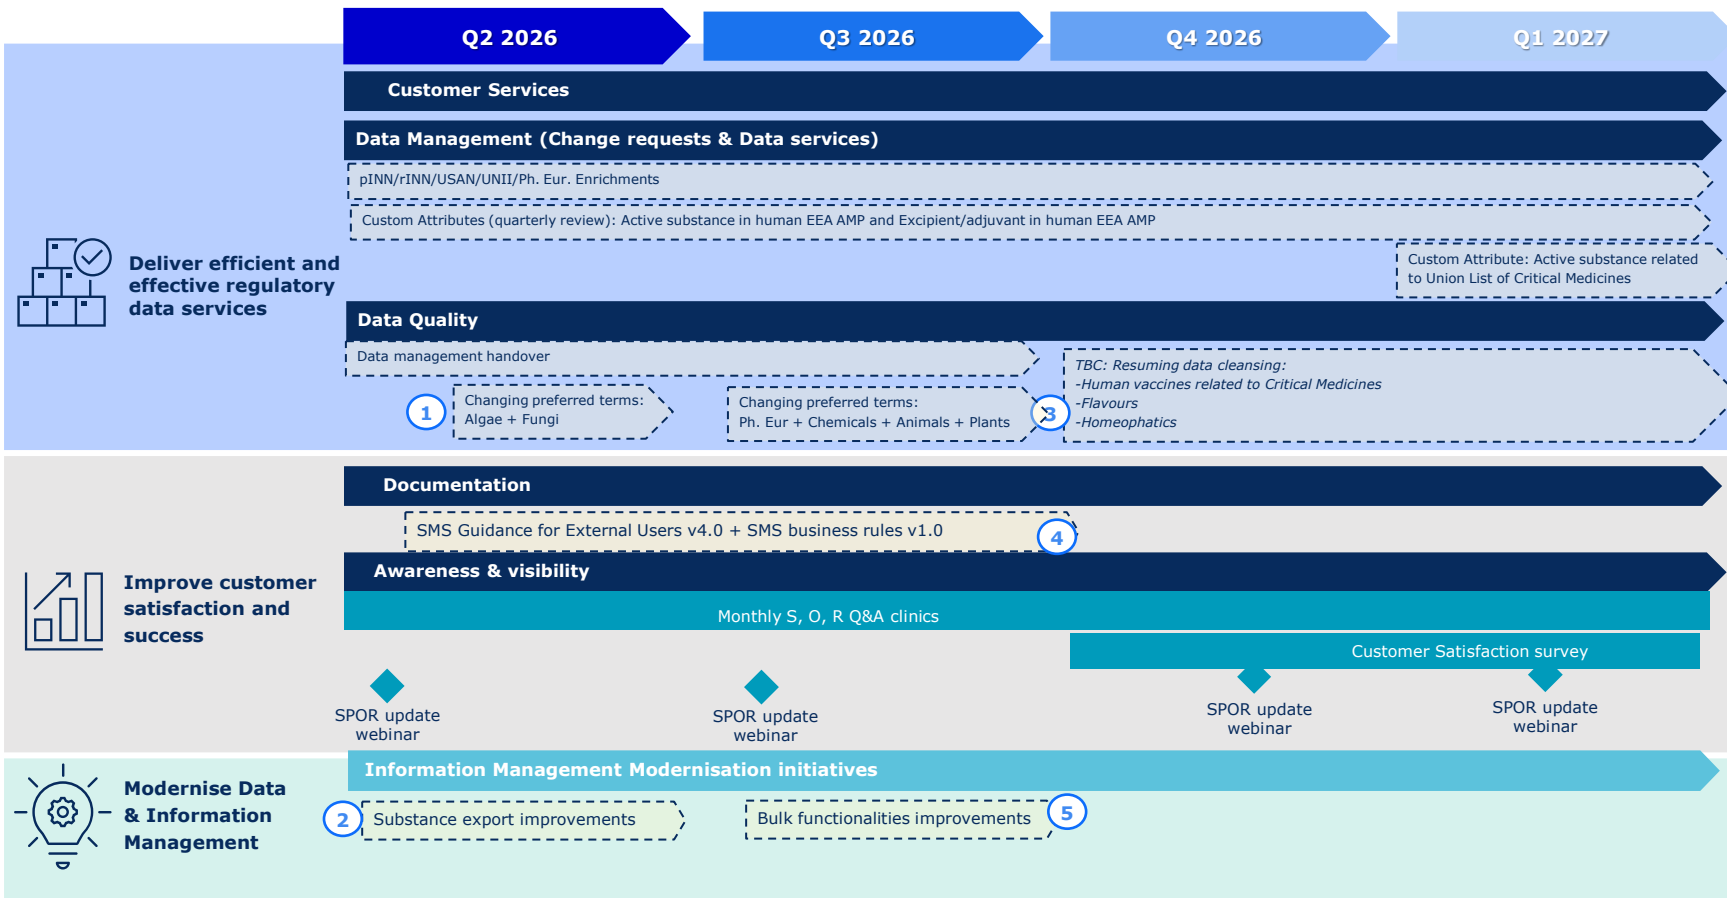

12:15 – 12:30

6

For questions: www.slido.com code: #STUP080726

SMS status update

Planned SMS Activities

Work completed – What has been done in Q2 2026

Why

How & when

Impact/ benefits to users

1

Updating outstanding preferred terms

- The SVG has identified that several substances required a change in the preferred term
- Changing substance preferred terms had an impact on ICSR recoding in Eudravigilance, so these changes have been on-hold

Technical change has been implemented in Eudravigilance to minimise impact on ICSR recoding - April 2026

Substances records with an **outstanding change in preferred term** have started to be updated in **batches by substance type/group**:

- **Algae** – completed in May 2026
- **Fungi** – completed in May 2026

- Improved data quality
- The **correct substance preferred term** is now visible in the eAF and other consuming systems

2

Substance exports improvements

- Increase access to substance data

New **columns** added in the **substance exports** in the SPOR Portal:

- Export of Current substances
 - **Replacement SMS ID** (for duplicates with SVG flag 0)
 - Ph. Eur. Number (external code)
- Export of Non-current substances
 - Substance domain

- Additional data available
- Replacement substance in case of duplicates more easily accessible

What's next? – What will be done in Q3 2026

Why

How & when

Impact/
benefits to users

3

Updating outstanding preferred terms

- The SVG has identified that several substances required a change in the preferred term
- Changing substance preferred terms had an impact on ICSR recoding in Eudravigilance, so these changes have been on-hold

Substances records with an **outstanding change in preferred term** have started to be updated in **batches by substance type/group**:

- Ph. Eur. - planned for July 2026
- Animals - planned for July 2026
- Chemicals - planned for August 2026
- Plants - planned for September 2026

- Improved data quality
- The correct substance preferred term is now visible in the eAF and other consuming systems
- Cleansing changes recommended by the SVG can be implemented quicker

4

SMS Guidance V4.0 + SMS Business Rules V1.0

- Reacting to feedback from customer satisfaction survey where customers demanded more and faster access to information
- Following Key User Group recommendation of splitting the SMS Guidance for External Users and the SMS Business Rules into separate documents

- **Holistic review of the whole Guidance** to be started by KUG in Q2
- **Publication** as a new major version expected by **end of Q3**

- More frequent **documentation** updates
- Enhanced supporting documentation allowing improved awareness
- **Predictability** of how substances will be registered and maintained

5

Bulk functionalities improvements

- Several bulk functionalities are available in SMS but only for one single SMS section at a time
- All bulk functionalities trigger updates in XEVMPD and EUTCT, even if the data fields updated do not exist in these systems

- **New bulk functionality** to be developed for updating **multiple** SMS sections at once of **duplicate records**:
 - Comments
 - SVG flag 0
 - Replacement substance
- Already existing bulk functionalities will only trigger updates in systems that have the **relevant data fields**

- Outcome of data enrichment and cleansing exercises **more quickly available in SMS**
- Unnecessary updates on consuming systems **no longer triggered**

Highlights to you

 Changing preferred terms: Algae + Fungi Substance exports improvements	 Data Management team handover Finalising changes in preferred terms: Ph. Eur. + Chemicals + Animals + Plants SMS Guidance version 4.0 + SMS Business Rules 1.0 Bulk functionalities improvements	 Human vaccines cleansing Flavours cleansing Homeopathics cleansing	 SVG flag 0 cleansing
What's changed?	Ongoing work	Future changes (<i>What's next?</i>)	On-hold 

Acronyms

SMS: Substance Management Services

SVG: Substance Validation Group

Q&A time

You can ask questions or give your input via the audience interaction tool **Slido**.

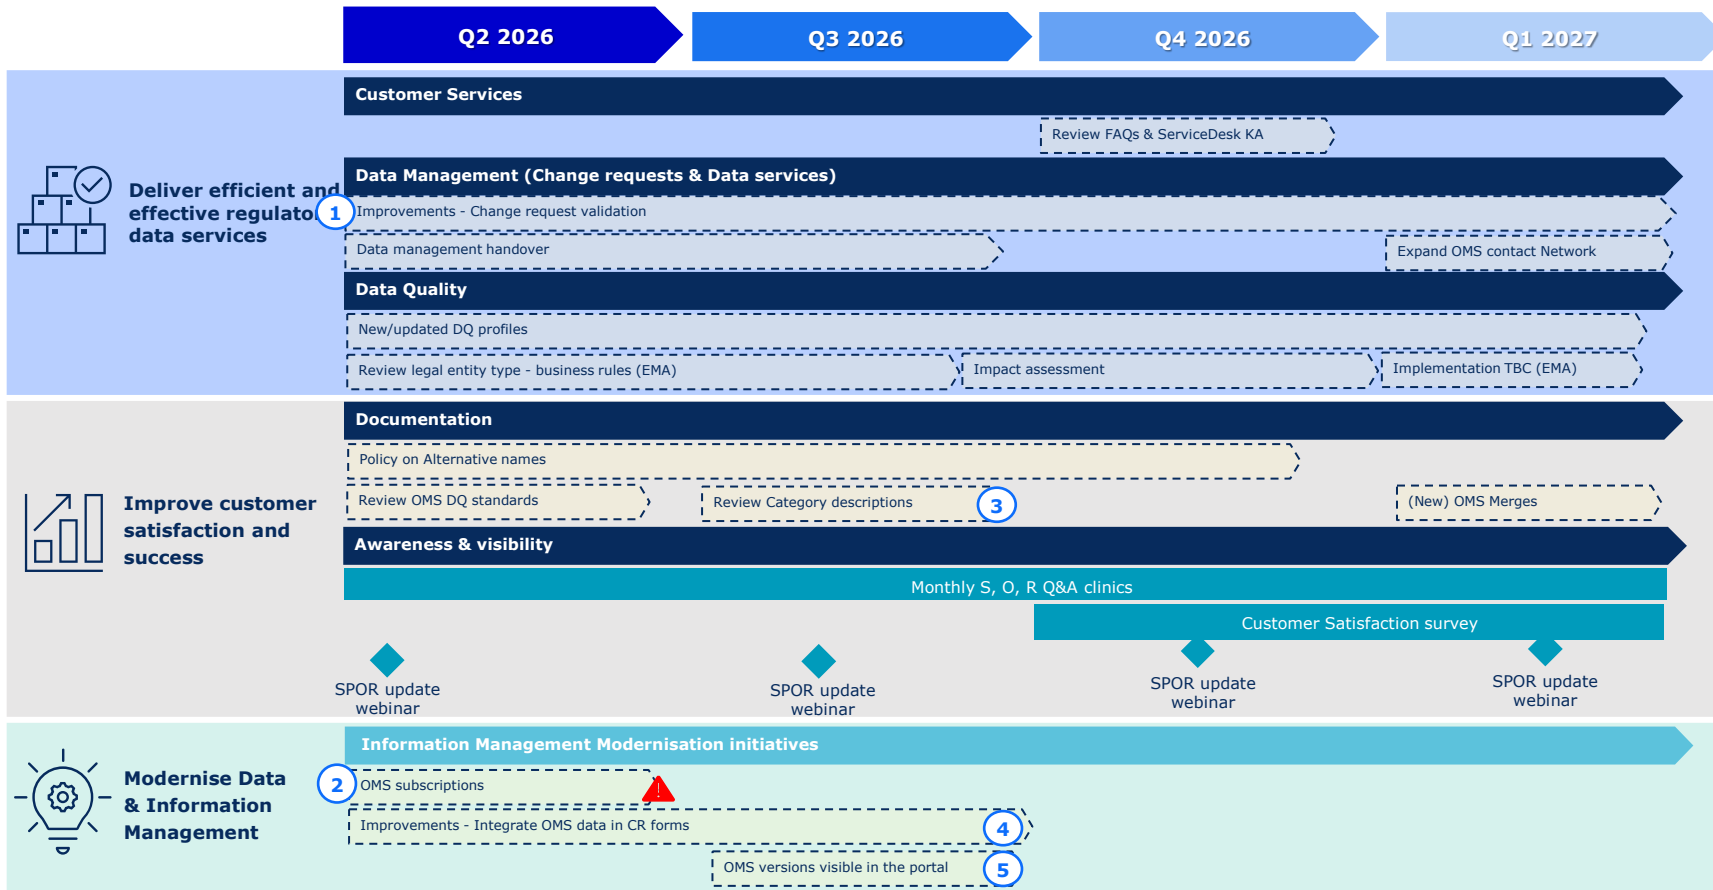

1. **Join at [slido.com](https://www.slido.com)** with the code #STUP0807426 or by scanning the QR code here.

2. **Send or upvote the questions** you want to hear answered
3. **Questions will be shown on the screen** and EMA colleagues will **verbally address top 5 voted questions** in the live Q&A sessions.

OMS status update

Planned OMS Activities

For questions: www.slido.com code: #STUP080726

Work completed – What has been done in Q2 2026

Why

How & when

Impact/ benefits to users

1 Change request validation Improvement

- Continued effort of process **harmonization** across different SPOR domains – RMS have return CR capability
- High number of **rejected** change request ~ 40%
- Slight increase of **SLAs**

- Triage and **validation** to take place in ServiceDesk
- If necessary, OMS Data Stewards will be able to **request more information** without having the user creating a new ServiceDesk request – **in Q2 20% decrease of rejected change requests**

- **Improve user experience**
 - **Reduce** the current **waiting time**
 - Reduce rejections, as we introduce the **return change request capability**

2 OMS subscriptions

- OMS data is **updated through change request and data services** activities
- Users often do not review OMS data prior to regulatory submission, so when data, business or standardization changes occur, there may be insufficient time to clarify them

- Every Monday, user will receive a **weekly email notification**, with a summary of changes that were implemented, during last week, in the subscribed organisations
- To receive notifications, users must **select the organisation they wish to subscribe, using the newly created Preference tab** available in the OMS portal
- This feature available since **24/06/2026**

- **Improved user experience**
 - When OMS data changes occur to subscribed organisations a **weekly email notification** will be sent
 - **Support users with the preparatory work** necessary prior to regulatory submissions - **reduce** hassle associate **to last minute clarifications**

What's next? – What will be done in Q3 2026

Why

How & when

Impact/ benefits to users

3 Category values/ description review

- Ongoing and continuous review of **Controlled vocabulary used by OMS**
- Improve data profiling

- Review current categories available and possible expansion to accommodate new requirements and/or recent system integrations

- Clearer categorization of OMS records facilitates filtering/usage of data

4 Integrate OMS data in CR forms Improvements

- Manually typing all fields leads to **mistakes/typos**, longer waiting time, further clarification required and, in some cases, *wrong* rejections

- Improve **OMS form accuracy through dropdown data selection**, meaning allow OMS Change request forms for New location, Update organisation and Update location to be populated with OMS data i.e. user will be able to select the organisation ID/name from a dropdown list

- **Improved user experience** since users don't have to copy/paste or type all fields

5 OMS versions visible in the portal

- **Easier and faster visibility of the latest version reason** at both organisation and location level

- When available, we will **display in the OMS portal**, under location detail's view (when you click to pen each individual record), **respective latest version** information for both organisation and location:
 - Version type – standard RMS terms
 - Version comment – further details on reason/outcome

- **Improved user experience** – details previously available only through OMS exports and OMS API are now added to the **OMS portal**

Highlights to you

What's changed?	Ongoing work	Future changes (What's next?)	On hold
 <p>Informatica MDM upgrade</p> <p>Change request validation improvement – return CR & reduction by 20% of rejected CR</p> <p> OMS subscriptions</p>	 <p>Data Management team handover</p> <p>Integrate OMS data in CR forms</p> <p>Category values/ description review</p> <p>Policy on Alternative names</p>	 <p>OMS merges guideline</p> <p>Review organisation legal entity types</p> <p>OMS versions visible in the portal</p>	 <p>OMS improvements/backlog e.g. Maintenance of NBRn via CR</p>

Acronyms

MDM: Master Data Management solution

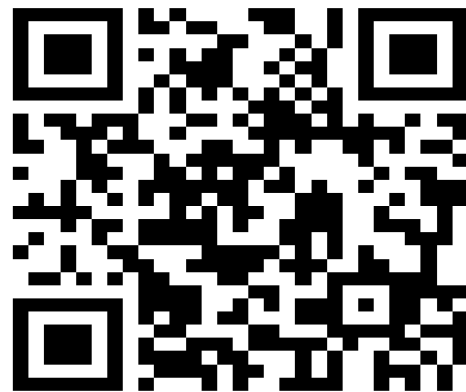

CR: Change Request

NBRn: National Business Registries number

Q&A time

You can ask questions via the audience interaction tool **Slido**.

1. **Join at [slido.com](https://www.slido.com)** with the code #STUP080726 or by scanning the QR code here.

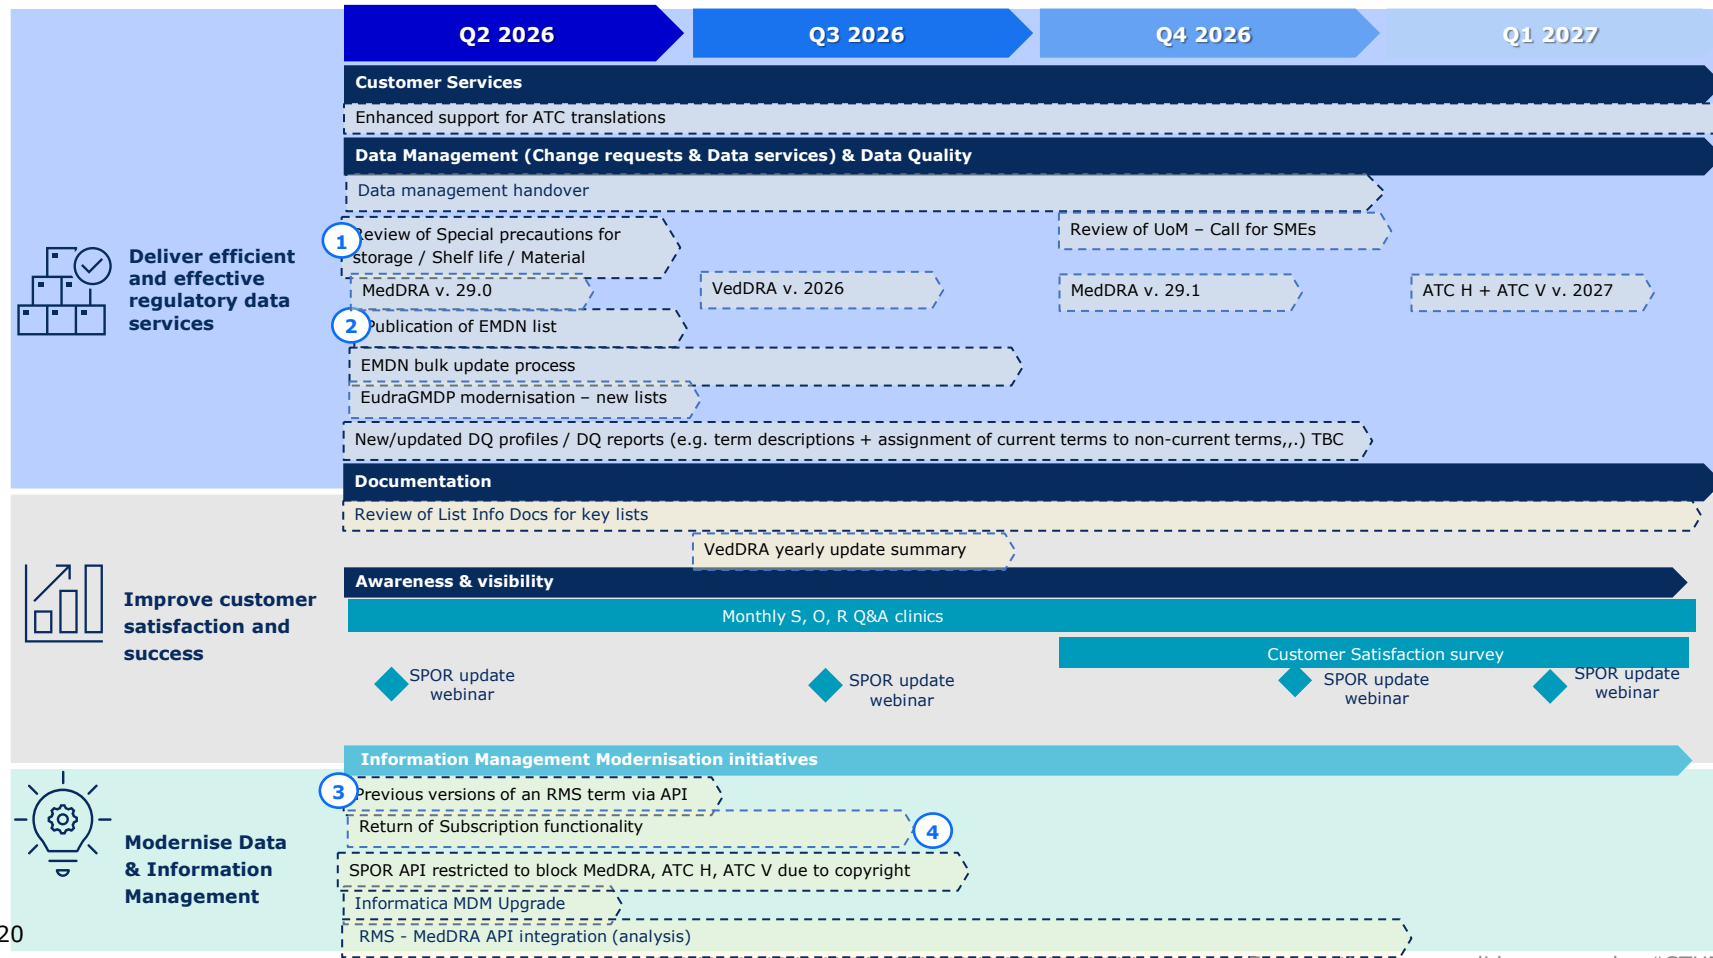

2. **Send or upvote the questions** you want to hear answered
3. **Questions will be shown on the screen** and EMA colleagues will **verbally address top 5 voted questions** in the live Q&A sessions.

*Interaction via Slido is voluntary, and you may opt to remain anonymous. If you chose to use Slido, **you consent to the processing of your personal data** as explained in the [EMA Data Privacy Statement for Slido](#).*

RMS status update

Planned RMS Activities

Work completed – What has been done in Q2 2026

Why

How & when

Impact/ benefits to users

1

Review of Special precautions for storage / Shelf life / Material

- **Increasing number of requests** and the need to have the lists ready for PMS implementation.

2

Publication of EMDN list

- Controlled vocabulary of **medical devices** is necessary in RMS for the PMS attribute "**Medical device nomenclature**".

3

Previous versions of a term via RMS API

- Versioning enables auditability, reproducibility, and backward compatibility by **letting users see what changed, recreate past results, and query specific versions without forced updates.**

SMEs were **identified** in **Q4 2025**.

Review started in Q1 2026 and **results** (rejected terms, new terms, revised names) by the end of Q2 2026. - Minutes of discussions available in RMS portal: Documents

- **B6**_Shelf life type_Review June 2026;
- **B7**_Special Precaution for Storage_Review June 2026;
- **B8**_Material_Review June 2026
- **Lists updated** in end of Q2 2026.

- **EMDN** agreed as gold standard. List published in June 2026, containing **mappings** between EMDN codes and RMS IDs. List will be updated on a yearly basis

The API can be queried by **version number, as-of date, or to list all versions of a term**. Responses include the **exact term definition and metadata for that point in time**. Implementation completed early Q2 2026.

- **Improved clarity and process efficiency.**
- Lists fit for purpose.
- Complete and up to date lists will ensure that the selection of referentials in regulatory applications is straightforward.

- EMDN list available in RMS for consumption by PMS users for product enrichment.

- Greater **clarity and transparency of changes**, stable integrations, **improved synchronisations** through flexible version identification and selection, and compliance-readiness for regulated environments.

What's next? – What will be done in Q3 2026

Why

How & when

Impact/ benefits to users

4

Return of subscription functionality

- Subscriptions (automated notifications of changes in RMS lists), which were temporarily disabled during the transition to the EMA Service Desk as the central point of contact for all CRs, are now being reinstated to enhance visibility and communication.

- Functionality **similar to the previous one** will be reinstated during Q3 2026.
- **E-mail address** will be required. A confirmation e-mail will be sent for confirmation by the user.
- No log in will be required.
- *Analysis will be held in Q3 to determine if/what improvements can be considered in the future.*

- Users will receive automated notifications when lists are updated, eliminating the need for manual checks and improving awareness of RMS changes.

Highlights to you

 What's changed?	 Ongoing work	 Future changes (What's next?)	 Future changes (What's later?)
<p>Informatica MDM upgrade</p> <p>Review of Special precautions for storage/Shelf life/Material</p> <p>EudraGMDP modernisation – new lists</p> <p>Publication of EMDN list</p> <p>Previous versions of a term via RMS API</p>	<p>Data Management team handover</p> <p>EMDN bulk update process</p> <p>Review of List Info Docs for key lists</p>	<p>Return of Subscription functionality</p> <p>Manuf. Activ. awareness session (Inspections & EudraGMDP)</p> <p>VedDRA v.2026</p> <p>MedDRA v.29.1</p>	<p>RMS – MedDRA API integration</p> <p>Review of UoM – Call for SMEs</p> <p>ATC H + ATC V v. 2027</p>

Acronyms

MedDRA: Medical Dictionary for Drug Regulatory Activities

SME: Subject Matter Experts

UoM: Units of Measurement

API: Application Programming Interface

EMDN: European Medical Device Nomenclature

Beta release - Public PMS API

PMS Public API full Roll out (TBC)

Modernise Data & Information Management

Work completed – What has been done in Q2 2026

Why

How & when

Impact/
benefits to users

1	Why	How & when	Impact/ benefits to users
<p>PMS Info Day - 3rd Edition</p>	<p>To enhance awareness and offer comprehensive insights into the implications of PMS for key stakeholders.</p>	<p>Hosted on Tuesday, 09 June 2026, 09:00 - 13:00 Amsterdam time (CEST)</p> <p>Live broadcasted Event page: Link</p>	<p>Enabled direct engagement with leaders, providing insights on PMS progresses, its impacts, benefits, and EU implementation preparedness.</p>
<p>Beta release - Public PMS API</p>	<p>A trusted Public EU-Wide source of medicinal product data is a win for Healthcare</p> <p>The purpose of the Beta release is to help users become familiar with the platform, start building their connections, and gain a better understanding of how the API works and what data is available.</p>	<p>Beta release Public PMS API launched on 12 June 2026. Access details are available on the PMS webpage: Annex B to Chapter 1</p> <p>Users must register with an email and accept the Terms and Conditions of Use.</p>	<ul style="list-style-type: none"> • Easy access to structured, authorised Public Product data • Faster integration and automation of workflows • Enables innovation and new use cases with PMS data • Empowers users to build, automate, and innovate using PMS data and technology.
<p>PMS documentation updates</p>	<p>To provide updated guidance, enhance usability, and increase transparency on progresses of PMS deliveries.</p>	<p>In Q2 2026 the following updates have been published on PMS page/PUI portal:</p> <ul style="list-style-type: none"> • Ch. 3, Ch.1, Annex A to Ch.1 (update) • Annex B to Ch.1 & Public API Tech. specs. (new) • Public PMS API FAQ (new) 	<p>Supports proper use of the PUI and PMS Public API, clarifies the available public data, reduces integration and interpretation issues, and increases overall transparency and trust.</p>
<p>PMS Data Quality enhancements: CAP Sync optimization & Non-CAP product deduplication</p>	<p>CAP data quality issues persist from the original SIAMED synchronization.</p> <p>Although the root cause of duplicate products had been technically resolved, impacted products had to be fixed.</p>	<ul style="list-style-type: none"> • CAP synchronisation optimization (SIAMED ETL): technical fix is being implemented to prevent future synchronisation issues, including duplicate ingredients and incorrect handling of authorization changes and MAH transfers. • Cleanup of duplicated Non-CAP products: For each pair, one record is retained and the other nullified on a case-by-case basis. 	<ul style="list-style-type: none"> • Ensure all authorised products are correctly displayed in PMS/PUI/eAF • MAHs see the correct number of products in PMS, eAF, etc. • Improved CAP data synchronisation, elimination of duplicate ingredients, and more accurate handling of authorization changes and MAH transfers. • Manual corrections and workload reduced.

What's next? – What will be done in Q3 2026

Why

How & when

Impact/ benefits to users

5

PMS Data Quality enhancements: Merge packages in multilingual countries + improve deltas from XEVMPD

- Products authorised in **multilingual** countries have their **packages** duplicated/triplicated in PMS (one per language) due to XEVMPD business rules.
- Some XEVPRMs are not properly handled in PMS and updates in XEVMPD are not propagated to PMS.

- Packages that have the same package description (**exact same text/language**) in XEVMPD will be merged in PMS as they will be considered the same package. (only in products authorised in **BE, LU and FI**)
- **Technical fix – Processing of Larger XEVPRMs will be improved** to handle all messages reliably.
- Data fix – Sync of messages previously missed/not processed will be analysed – *Fix expected in Q4*

- Improved data completeness and consistency.
- Reduced duplicate package records.
- Missing XEVMPD product data available in the PMS API and PUI.
- More accurate search results and easier data retrieval.

6

PMS topic-specific webinars

- Bring awareness and inform stakeholders on specific milestones and activities:
- Beta release Public PMS API
 - PMS Data Quality & Customer Service

- PMS events are hosted virtually via Webex. Registrations are open at the following links:
- **Beta release Public PMS API on 13 July 2026** (2-3:30 PM) [Register](#)
 - **PMS Data Quality & Customer Service on 21 July 2026** (2:30-4:00 PM) [Register](#)

- Practical guidance on using the PMS Public API.
- Overview of the 2026 PMS data quality strategy.
- Best practices for interacting with EMA via ServiceNow.
- Direct access to PMS Product Owners for Q&A and clarifications.

7

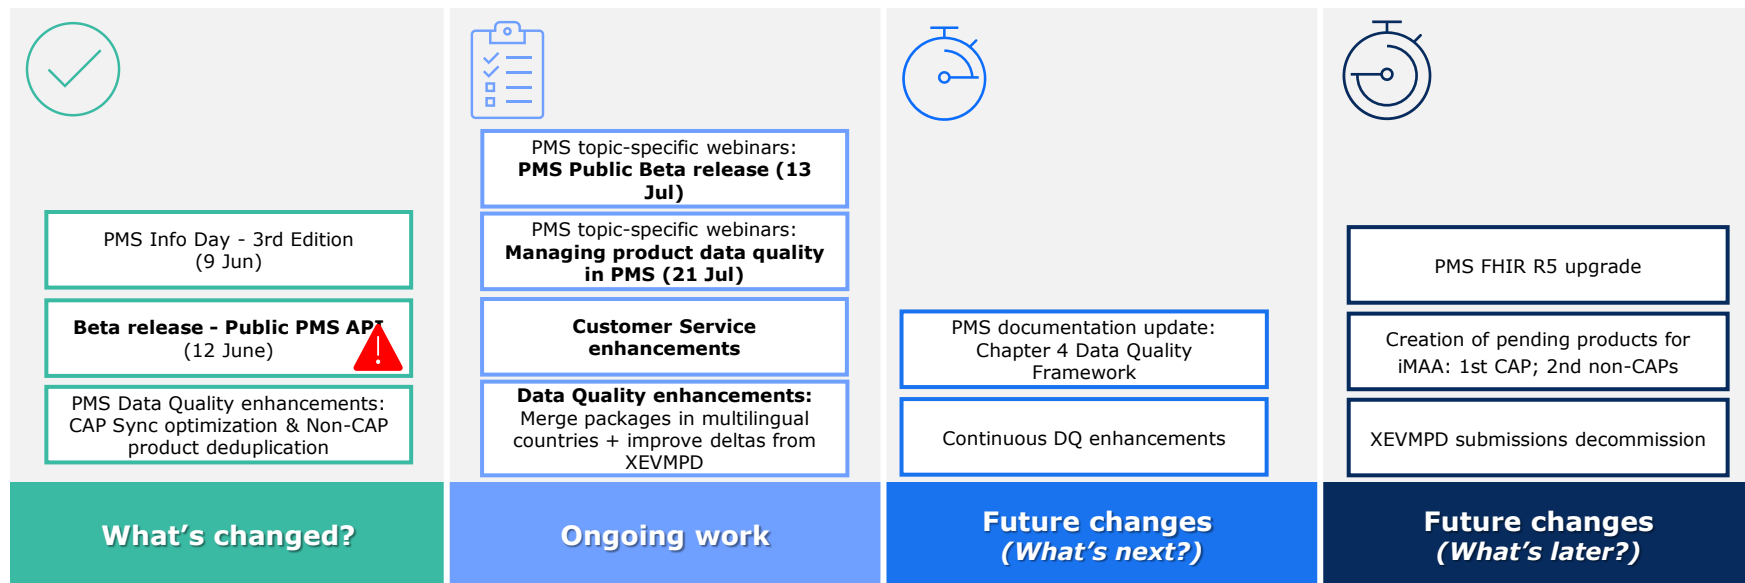

Customer Service enhancements

- Enhance customer support efficiency, consistency, and responsiveness to improve the user experience.

- During Q3 the following activities will take place:
- Scaled Customer Service training programme
 - Strengthened ticket monitoring
 - Revised ticket management processes
 - New user guidance and information
 - Faster triage and investigation procedures
 - Increased Customer Service capacity

- Faster response and resolution times
- More consistent and accurate support
- Improved communication and guidance
- Enhanced user experience and satisfaction

6. Update/Sync your data

Dear Sir/Madam,

Please be informed that in Week 20/2026:

a) The following organisation(s) you have subscribed to have been updated:

Organisation Id	Organisation Name	Type of change	Organisation Last Update
ORG-100026210	Lo's Chemists Limited	Validation check	20/05/2026 01:24 PM
ORG-100000833	Novartis Pharma B.V._	New	20/05/2026 01:40 PM
ORG-100000833	Novartis Pharma B.V._	Standardisation update	20/05/2026 01:39 PM
ORG-100022007	Udfifar II Distribuicao Farmaceutica S.A.	Validation check	20/05/2026 01:34 PM
ORG-100022007	Udfifar II Distribuicao Farmaceutica S.A.	Deactivation	20/05/2026 01:34 PM

b) The following location(s) you have subscribed to have been updated:

Location Id	Organisation Id	Organisation Name	Type of change	Location Last Update
LOC-100005250	ORG-100000833	Novartis Pharma B.V._	Standardisation update	20/05/2026 01:49 PM
LOC-100005803	ORG-100000833	Novartis Pharma B.V._	Validation check	20/05/2026 01:45 PM
LOC-100005459	ORG-100001110	Teva B.V.	Deactivation	20/05/2026 01:42 PM

For more information on these changes, please refer to the details available in OMS exports and OMS API.

If you wish to unsubscribe from an organisation, please use the subscriptions management page under the preferences tab available in the OMS portal.

Regards,
SPOR Data Management.

(This is an automated e-mail - please do not reply as e-mails to this address will not be monitored.)

Dear Sir/Madam,

Please be informed that in Week 22/2026:

a) The following organisation(s) you have subscribed to have been updated:

Organisation Id	Organisation Name	Type of change	Organisation Last Update
ORG-100026210	Lo's Chemists Limited	Deactivation	27/05/2026 01:34 PM

b) The following location(s) you have subscribed to have been updated:

Location Id	Organisation Id	Organisation Name	Type of change	Location Last Update
No changes in this period.				

For more information on these changes, please refer to the details available in OMS exports and OMS API.

If you wish to unsubscribe from an organisation, please use the subscriptions management page under the preferences tab available in the OMS portal.

Regards,
SPOR Data Management.

(This is an automated e-mail - please do not reply as e-mails to this address will not be monitored.)

- Email notification, sent **every Monday**, listing **all new versions/changes** of the subscribed organisations during previous week:

- **Point a)** displays all **Organisation versions/changes** of the subscribed organisations e.g.:
 - organisation undergoes a **name update** > Type of change will read **Name change**
 - organisation is **set as Inactive** > Type of change will read **Deactivation**
 - merge 2 organisations, as they are the same organisation/duplicate > Type of change will read **Deduplication**

- **Point b)** displays all **Locations versions/changes** of the subscribed organisations e.g.:
 - locations is set as Inactive > Type of change will read **Deactivation**
 - We **add xEVMPD code** to the location > Type of change will read **Mapping enrichment - external information**

- If **no changes occur** to the records you are subscribing to, the message **No changes in this period.** will be present in the email notification

IMPORTANT – Email notification acts as an alert/prompt for updates and will NOT

- Inform of **newly created organisations**
- Provide full **details on the updates/change**

➢ You should specifically know/search for organisations relevant to you or use the exports/OMS API to detect **New Organisations** or details of updates

OMS subscriptions

Facilitate your data updates by getting informed of changes to relevant Organisations

2. Search relevant organisations

3. View subscriptions

4. Manage subscriptions

5. Get notifications

6. Update/Sync your data

Documentation/guidance

- Current slides – published in OMS portal
- WebUI manual will be updated to include this new feature – published in OMS portal

OMS subscription functionality has been released as MVP, to provide users with earlier access and faster visibility of the available information.

To continuously enhance this feature, **future improvements** will be shaped through discussions with KUG, as well as your valuable **feedback provided through the customer satisfaction survey**. Your input will play an important role in helping us prioritize and deliver the most impactful enhancements.

Examples of possible improvements - TBC:

- Easier access to the last Version type & comments
- Further details on merges
- Further details on location

OMS Subscriptions (Week 26/2026)

noreply@
To: User@email.com

Wed 01/07/2026 13:06

Dear Sir/Madam,

Please be informed that in Week 26/2026:

a) The following organisation(s) you have subscribed to have been updated:

Organisation Id	Organisation Name	Type of change	Organisation Last Update
ORG-100050377	Strawberry Pharma Ltd.	Business merge	30/06/2026 06:10 PM

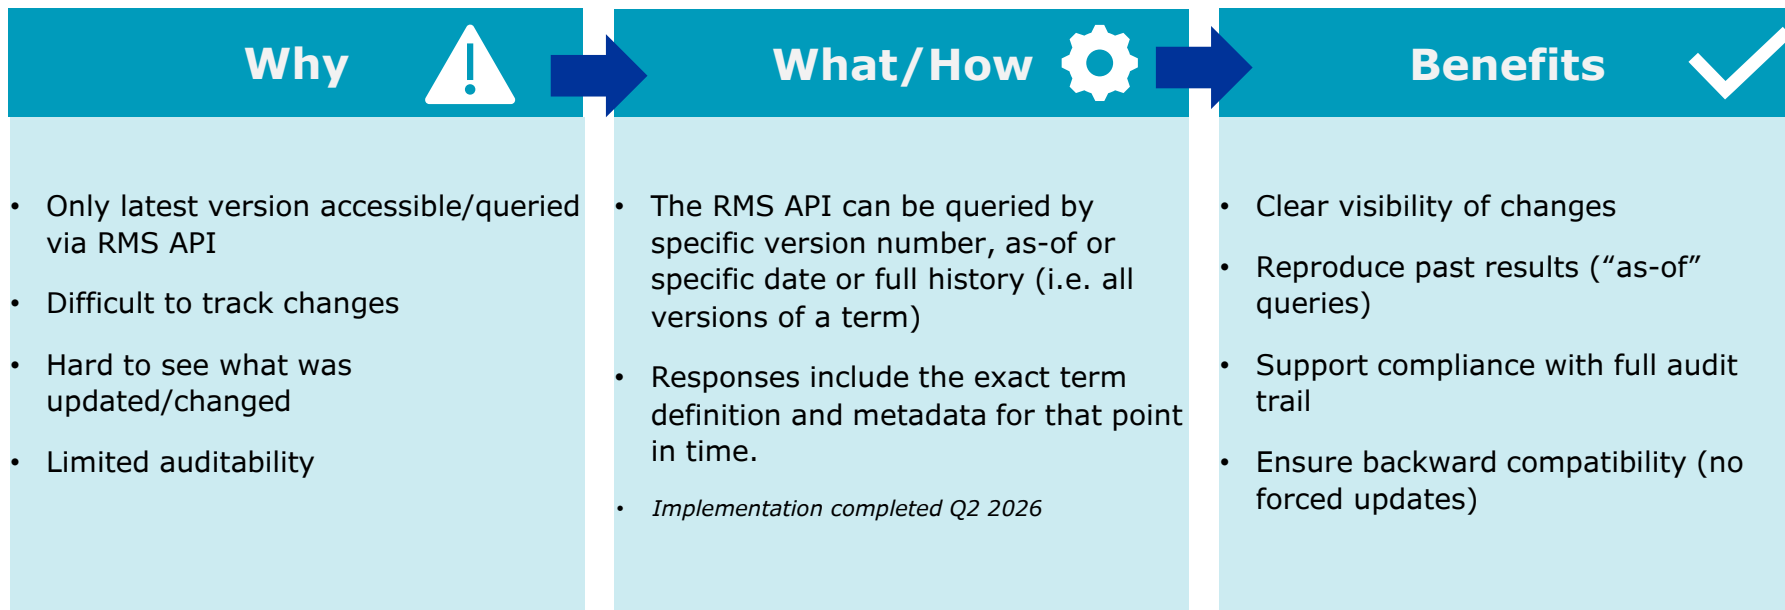

- The **periodic review of the new OMS email notification** and, analyses of respective *Type of changes* **will help you** with:

- **preparatory work necessary prior to regulatory submissions** e.g. further clarification may be required from OMS side for you to be able to process with your regulatory submission
- certain **OMS changes may require further actions at consuming system level** e.g. if a merge occurs in OMS access may be negatively impacted

Term versions in RMS API

RMS API: Accessing Term Versions

RMS API - Considerations

Requirements

- **Registration required** (see RMS documentation, slide 54)
- **API version:** All RMS & OMS queries must include API version “v1” (SMS queries are v2)

Example

- **List ID:** 100000000001
- **Term ID:** 1000000000029
- **Request:**
<http://spor.ema.europa.eu/v1/lists/100000000001/terms/1000000000029?version-number=5>

Tools

- Querying possible with different tools e.g. of **free applications:**
 - *Postman ([Sending your first request | Postman Learning Center](#))*
 - *[Dog API by kinduff](#)*
 - *[Free Dictionary API](#)*
 - *[API - RijksData \(rijksmuseum.nl\)](#)*
 - Many more (([GitHub - public-apis/public-apis: A collective list of free APIs](#)))

RMS API - Querying the latest term version 1/2

Query

- **Syntax:** GET
- **Endpoint:**
<http://spor.ema.europa.eu/v1/lists/List-ID/terms/Term-ID>
- **Returns:** Latest version of the term

Example

- **List ID:** 100000000001
- **Term ID:** 100000000029
- **Request:**
<https://spor.ema.europa.eu/v1/lists/100000000001/terms/100000000029>

Result

Example response (Postman)

GET `https://spor.ema.europa.eu/v1/lists/100000000001/terms/100000000029` Send

Query Params

Key	Value	Description	Bulk Edit

28    <visibility code="PUBLIC"/>
```

- Only the latest version is returned
- Example: **version 6**

RMS API - Querying for a specific version of a term

Query

- Syntax: GET
- Endpoint:
`http://spor.ema.europa.eu/v1/lists/List-ID/terms/Term-ID?version-number=X`
- Returns: Requested version only

Example

- List ID: 100000000001
- Term ID: 100000000029
- Request:
`https://spor.ema.europa.eu/v1/lists/100000000001/terms/100000000029?version-number=5`

Result

- Only the requested version is returned
- Example: version 5
- Other versions are not included

RMS API - Querying for all versions term

Query

- Syntax: GET
- Endpoint:
<http://spor.ema.europa.eu/v1/lists/List-ID/terms/Term-ID?versions=true>
- Returns: All available versions of the term are returned (multiple versions exist)

Example

- List ID: 100000000001
- Term ID: 100000000029
- Request:
<https://spor.ema.europa.eu/v1/lists/100000000001/terms/100000000029?versions=true>

Result

The screenshot shows a REST client interface with the following details:

- Request:** GET <https://spor.ema.europa.eu/v1/lists/100000000001/terms/100000000029?versions=true>
- Response:** 200 OK, 1.53 s, 11.81 KB
- Body:** XML

Conclusions

Q2 highlights

Deliver efficient and effective regulatory data services

- Maintain the provision of S, O, R and XEVMPD/PMS data management services

- **SMS**: Started changing substance preferred terms

- **OMS**: Change request validation improvement – return CR capability, reduction by 20% of rejected CR

- **RMS**: Review of Special precautions for Storage/Shelf life/Material, Publication of EMDN list, MedDRA 29.0

- **XEVMPD/PMS**: Update of Guidance documents and start of product de-duplication

Data Management Knowledge Transfer

Improve customer satisfaction and success

- Provide increased and targeted customer engagement

- ...

Modernise data & information management

- Improve S, O, R and XEVMPD/PMS data management capabilities

- **SMS**: New fields available in exports

- **OMS**: Subscription feature

- **PMS**: Beta release of Public PMS API

- **RMS**: Previous versions of an RMS term via API

Q3 objectives

Deliver efficient and effective regulatory data services

- Maintain the provision of S, O, R and XEVMPD/PMS data management services

- **SMS:** Finalising changes in preferred terms
- **RMS:** EMDN bulk update process, VedDRA v.2026
- **PMS:** Merge packages in multilingual countries + improve deltas from XEVMPD

• Data Management Knowledge Transfer

Improve customer satisfaction and success

Provide increased and targeted customer engagement

- **SMS:** Publication of SMS Guidance v4.0 and Business Rules v1.0

Modernise data & information management

Improve XEVMPD/PMS data management services (and capabilities)

- **SMS:** Improved bulk functionalities
- **OMS:** Integrate OMS data in CR forms
- ⚠️ • **RMS:** Return of Subscription functionality
- ⚠️ • **XEVMPD:** Bulk Export & Bulk Update tools made available within XEVMPDweb
