EMA/785529/2017 rev.2¹
Veterinary Medicines Division

Member states contact points for review of national implementation of Quick Response (QR) codes of veterinary medicinal products authorised via the centralised (CP), mutual recognition (MRP), decentralised procedures (DCP) and national procedures

Member states contact points to be contacted before launch for review of national implementation of QR code content when information other than statutory PI is provided (e.g. for checking of the national translations of an approved video, etc.).

This review is not applicable when only statutory product information is provided via the QR code (i.e. Product information exactly as approved by the relevant Competent Authority (CA)).
